Shopify

1 Year

Application & Theme Development

Extensive knowledge in Shopify Themes as well as Application Development, third party payment gateway (which doesn't have shopify support) integration with shopify stores. Built themes for domains like Grocery, Apparels and Food etc..

Projects

SwPanel

Javascript, jQuery, JSON, HTML5, CSS3, Bootstrap 3, PHP5, Shopify API

This is one of my pet project, i was trying to create a customized (not exactly) Shopify Store Admin Panel (to get familiar with Shopify APIs). It has been designed as a Single page Java Script Driven Application. Most of the logic have been built by using Java Script, I followed the Convention Over Configuration Approach.

It is a fully hand coded Java Script with 1 Primary Module, 6 Context Modules and 2 Components. It does almost all the things which can be done by Shopify Official Store Admin (only in these five contexts Product, Inventory, Collection, Order and Customer).

Here is the live Demo : <http://sarkutils.in/swpanel>

Sark Press

Wordpress, PHP5, HTML5, CSS3, Bootstrap 3, Javascript, jQuery

Sark Press is simple, responsive and neat WordPress Theme without any gimmicks, It has all the necessary elements to render your content in all types of screen.

Sark Press has well structured templates, which allows you to customize to any extend. One of the powerful feature of Sark Press is SEO optimized, the templates are hard wired with schema.org meta tags, which makes sure your contents are search engine friendly. Sark Press is built using Bootstrap 3, It is responsive, perfectly fits on all screen and all devices.

Here is Wordpress theme store link : <https://wordpress.org/themes/sark-press>

Sark Migs

Wordpress, PHP5, Master Card

Sark Migs is a WordPress plugin that enables MIGS payment gateway support for your WooCommerce powered sites. It Allows you to use MasterCard Internet Gateway Service or any other bank that uses MIGS (like HSBC, Bendigo Bank, Axis Bank ...) with the WooCommerce plugin.

Here is the demo : <https://wordpress.org/plugins/sark-migs/>
